

Motion to Amend the University Clock Schedule for the Atlanta Campus

Approved by Admissions & Standards 3/31/17

Approved by University Senate 4/13/17

Effective Fall 2018

Motion: To adopt a new clock schedule as specified in the following pages.

Rationale: A re-evaluation of the university clock and scheduling times is necessary in order to achieve higher efficiency in classroom usage and a balanced schedule.

The proposed amended clock schedule would allow faculty greater flexibility in the selection of time blocks for course offerings. Students can also register for more courses in the morning as there will be additional, non-overlapping time slots available. This could reduce the time to graduation for many of our students who have difficulty scheduling multiple classes.

Key elements of the proposed clock schedule are:

- Time blocks more evenly spread across the week
- Mirroring of the MW, WF, and TR 3-credit hour time slots
- Addition of 22 WF time slots
- Addition of two MW 3 credit hour and two MW 4 credit hour morning time slots
- Reduction in overlapping afternoon time slots
- Addition of 1 day/week morning time slots on M, T, R, F
- Removed 3 day/week time slots at 11:00, 12:30, 17:30, 19:15
- Shifted TR afternoon time blocks by 15 minutes across all CHs to allow for a 30 break
